PROFILE

Business administration graduate with an international background and a focus on digital marketing, SEO and website optimisation. I enjoy understanding why people search for the things they do and using data and technology to help businesses reach them online. My interests sit at the intersection of digital marketing, consumer behaviour and search technology.

EDUCATION & UNIVERSITY EXPERIENCE

BSc Business Administration and Management

University of Szeged, Hungary

Thesis: *Marketing Strategy for Indonesian Food Products in the Global Market*

Relevant coursework: Consumer Behaviour, Marketing Channels & HoReCa Management

Teaching Assistant: Consumer Behaviour, Marketing Channels, HoReCa Management & Environmental Economics

International Office Intern: Aug–Nov 2025 | Supported student accreditation and international mentoring programmes

Volunteer: Szegedi Keresztény Roma Szakkollégium, supporting Roma & disadvantaged students through intercultural programmes

PROFESSIONAL EXPERIENCE

Digital Marketer

OSKA Digital Advertising, Cambodia

Sep 2023 – May 2026

- Grew organic traffic by ~60% through SEO, technical improvements and social media funneling.
- Conducted keyword research, search-intent and SERP analysis to identify growth opportunities.
- Optimised content, metadata, internal linking and site structure for organic search.
- Monitored performance and technical issues using GA4, Google Search Console and SEO tools.

SELECTED PROJECT

Cloaker Checker | *Creator & Developer, 2026*

- Built a web tool to detect potential search-engine cloaking by comparing browser and simulated Googlebot responses, with ongoing development.
